**Cessnock's wildlife
need your help!**

Superb fairy wren

**Create a habitat stepping
stone to help them out.**

It's easy! Just add a few habitat
elements to your backyard
to create a valuable
wildlife-friendly stopover.

Red bloodwood

How it works

1 Discover

Visit our website to see dozens of beautiful food, water and shelter elements you can add to your backyard or balcony to help our local wildlife.

2 Pledge

Select three or more elements to add to your place. You can even show you care by choosing to have a bird appear on our online map.

Any 3 elements = Green bird

Any 5 elements = Blue bird

7+ elements = Red bird

3 Share

Join our Facebook community to find out what's happening in the natural world and share your pics, tips and stories.
