Document:

TITLE:	Maintenance of Footpaths, Grass Nature Strips and Verges in Urban Areas
AUTHORITY:	Council
DATE OF ADOPTION/AMENDMENT:	19 September 2001
REPORT NO:	DS&CS 156/2001
MINUTE NO:	478
POLICY NO:	F5.5
POSITION RESPONSIBLE:	
RELEVANT LEGISLATION:	
PREVIOUS POLICY NO:	
DATE LAST REVIEWED:	28 October 2009 - Policy Review Committee OR5/2009

OBJECTIVE

To state Council's policy with respect to the maintenance of grass nature strips, footpaths and verges within the Council's urban areas.

POLICY

Council will mow grassed footpaths and nature strips in front of Council owned property or public land in line with budget allocations as determined in each budget cycle.

Council will not mow grassed footpaths and nature strips in front of private, commercial or industrial property.

Where as the result of roadworks the road formation is reduced with a corresponding increase in the nature strip, the fronting property owners are expected to maintain their frontage. Such reduction in formation is normally associated with pavement reconstruction, sealing (including shoulders) and installation of kerb and gutter. The benefits of such works to the property owner in improved amenity and improved marketability are considered by Council to offset any increased inconvenience or cost due to additional mowing.

Where a property owner is temporarily incapacitated, the Council may at the discretion of the Infrastructure Works Manager undertake mowing of the nature strip twice, ie over maximum 6 month period. After such time the property owner would be expected to make other arrangements (eg engage a lawn mowing contractor).
